

at the city mosque

at the bazaar (market)

# at the pyramids

# the River Nile running through Cairo

in the city

An aerial photograph of a densely packed urban area, likely in a city in the Middle East or North Africa. The image shows numerous multi-story apartment buildings, often referred to as tower blocks, arranged in a grid-like pattern. The buildings are mostly light-colored, possibly beige or tan, and have flat roofs. Some buildings have balconies and air conditioning units. The streets are narrow and filled with cars, and there are some trees and green spaces interspersed among the buildings. The overall scene depicts a high-density, multi-story residential environment.
